GitHub.com vs GitHub Enterprise

Businesses have a range of security and administrative needs. Choose the deployment option that works best for you.

Collaboration

With GitHub Enterprise, code collaboration and review are built into the development process. Your team can share work, discuss changes, and get feedback all in one place.

FEATURE	GITHUB.COM	GITHUB ENTERPRISE
Code search	✔	✔
Pull requests	✔	✔
Inline editing	✔	✔
Markdown support	✔	✔
@ mentions	✔	✔
Inline rendering of PDF	✔	✔
Image diffs	✔	✔

Security

Manage permissions from one place with SAML or LDAP Sync. You can invite cross-team collaboration on GitHub, while providing essential controls for employees and contractors alike.
